**ALP Technical Alert – Quiklift® Insulated Panel Anchors**

*RE: Tension Bar, L – Overall Length*

In ALP’s 2022 Catalog and Technical Manual on p.47 for the QuikLift Insulated Panel Anchors, 10Ton (QL242G, QL242SPG, QL243G & QL243SPG) the lengths were shown as 41” for the top and bottom bars. Due to the secondary bend requirement, Bend Detail B, the correct overall bar length, L is to be 51”.

Also, in the 2022 Catalog on p.49 for the QuikLift Forged Insulated Panel Anchors, 6Ton, 9Ton and both 12Ton Anchors the tension bar, L - Overall length was published with a longer length than what is required. Below is a chart indicating the changes:

**QUIKLIFT FORGED INSULATED PANEL ANCHORS**

Part #	L - Overall Length (Old)	L - Overall Length (New)
QLFIP6T7G	51”	41”
QLFIP9T534G	54”	44”
QLFIP12T7G	60”	49”
QLFIP12T8G	60”	49”

Sincerely,

**Todd Jones**
